Communicating with residents is an important element of local government and celebrating our “We Care” city is what we do best. We Live Local is emphasized in everything, including how we partner, develop and implement our strategic plans to move our city forward. Lauderdale Lakes, our “We Care” city, is the Gem of Broward County. When you leave our Taste of Lauderdale Lakes event on November 16th, you would have experienced the best of Lauderdale Lakes and understand why we were recently named 2nd in the top 10 mid-sized cities to relocate to in Florida. We are a diverse city with an international flair and a strong Caribbean presence. In our schools, we are proud to boast 120 different languages. We ask for your patience as we complete the major, overdue surface and underground renovations in the city. This is a program that will take approximately two years to complete.

We are still in the hurricane season and ask that you stay prepared. Please register for our Lakes Alert so you can receive special event and emergency updates. You can also follow us on social media.

Because our children are the future, we must invest in safe places for them to play and learn. As I participate in programs provided by the U.S. Conference of Mayors (USCM), National League, Florida League and Broward League of Cities, I am always looking for that return on investment to our city. One example was an opportunity for two students from our city to accompany me in attending the USCM National Mayors Youth Summit in Los Angeles, CA, free of charge. In addition to being an environment of learning, they were provided an opportunity to interact with their peers from across the nation and share ideas from their own perspectives; this was a learning experience for our students to move the city forward.

We continue to focus on economic development and our local businesses and look forward to adding the Lauderdale Lakes Chamber of Commerce as another economic development partner with the re-launch of that entity. Census count participation is up to all of us. More than ever, we must ensure that everyone in your household is counted. Our revenues for many of the programs we provide are at risk without an accurate count. Please join us for more information at our Townhall on Thursday, November 7, 2019 at 6pm in the Multipurpose Auditorium.

As we close out 2019, these are a few of our projects:

- Phase 2-Stormwater Conveyance and Water Quality Improvement Project
- Trailhead Park Gateway Sign on Northwest 31st Avenue
- Development Services Impact Windows and Doors
- Fire Station improvements
- City Hall Gateway Sign
- Northwest 31st Avenue Overlay District
- Air Handler Refurbishment
- Water Pollutant Reduction Tactic Projects
- City Hall Fuel Convault Protection Wall
- City Hall 2nd Floor Bathroom Renovations

I am honored to be your Mayor and proud of our staff. Thank you, Lauderdale Lakes and friends of Lauderdale Lakes, for the overwhelming response to the call to support the people of the Bahamas. For details on how you can assist those relocating to Broward County, please call 754-321-1599.

You are our voices and you tell the best stories about your “We Care” city. I will always ask you if you see something to please say something. You are the eyes and the ears of our community.

Be safe, enjoy the holidays and all the best for a healthy and prosperous New Year.
Hello Residents and Friends,

I hope everyone enjoyed their summer. The kids are back in school and it’s time to move into Fall.

Let’s talk Recycling. Facts show that Recycling saves the environment, and benefits our community. Recycling also prevents pollution by reducing the need to collect new raw materials, and it saves energy. According to the Environmental Protection Agency (EPA), “Recycling is the process of collecting materials that would otherwise be thrown away as trash and turning them into new products.” A good habit would be to purchase products that have been made from recycled materials.

Some items that can be recycled are office paper, newspapers, magazines, cardboard, bottles, metal cans and cartons. Remember, not all plastics are recyclable. Be courteous to those who pick up our recyclables by rinsing cans and bottles before placing them in the recycling bin.

A gentle reminder to help keep our children safe by obeying speed limits when in school zones, and staying off of your phones. Keep in mind to only cross streets at designated areas for your safety, please.

As this is our last issue for this year, I’m wishing everyone happy and safe holidays!

Your Vice Mayor,
Sandra Davey
September is budget month. There are many things and activities that go on in our City from Parks and Recreation, Public Works to Fire and Police departments. All of these things cost money and are paid for with your tax dollars. While some may think that we have raised our mileage rate, it is the same as last year. If your property tax bill increases, it will be because your property value has increased. We have aggressively and cautiously reviewed the budget for the City of Lauderdale Lakes with the best interests of our citizens in mind. Thank you to our residents who attended the budget meetings, the budget advisory committee, and thanks to our staff for all of their hard work in completing the budget process. With everyone's input, suggestions and recommendations it will help to guide us to be the best “We Care” City.

There are many wonderful family activities planned for our city in the coming months from Spooktacular on October 31st, Veterans Day Ceremony on November 11th, Taste of Lauderdale Lakes on November 16th to our Annual Tree Lighting event in December.

Have you looked at Lakes Live TV? Check it out for a sneak peek into what's happening in and around our City. Missed a Commission meeting? It's also on Lakes Live TV. Visit the City's website at lauderdalelakes.org.

We are in Hurricane season until November 30th, continue to stay prepared.

Sincerely,
Commissioner Marilyn Davis
Greetings my fellow residents and businesses of Lauderdale Lakes!

Summer is over and our children have started back to school. Please be mindful of school crossing speed limits. Slow down and keep a watchful eye on our children. Let’s keep our children safe!

Parents, it is very important that you are engaged in your child(ren)’s school and educational pursuits. Parental involvement is known to increase a child’s academic success. Help your child to rise to his or her highest potential. We have smart, intelligent, capable and competent children. Let them know that you support them by assisting with homework, attending Parent/Teacher conferences, participate in school wide events when possible and always be positive and encourage them in their studies.

We are now in Hurricane season. Let us adhere to warnings to prepare ourselves for ALL potential hurricanes! Have your Emergency Kit ready, know what Shelters are available should you need to leave your home, get gas for your car and generators, cut low hanging limbs and importantly, make sure your children know how to keep themselves safe!

To assist residents in making sure that our homes are “hardened” the City has many programs that provide numerous ways to make our homes safe. They include the following:

- Hurricane Loss Mitigation Program (HLMP)
- Community Development Block Grant Minor Home Repair Program
- Home Air Condition Replacement Program
- Home Purchase Assistance Program
  Please contact Developmental Services at 954-535-2483 for details and more information.

TASTE OF LAUDERDALE LAKES – November 16, 2019, 1:00 p.m. – 6:00 p.m.
Lauderdale Lakes Waterfront 3900 North State Road 7
Come out and enjoy Arts and Culture Village, Food Trucks, Restaurant Showcase, Kids Corner, Best Home Chef Cookout, and Music, Music, and Music!

The 2020 CENSUS is coming April 1, 2020! We have begun our Complete Count Census Committee. We want and need every person in every household counted!
The Holiday seasons are also upon us. I wish you all a Happy Thanksgiving, Merry Christmas, Happy Hanukkah, Seasons Greetings, Jwaye Nwel, Feliz Navidad, and Happy Kwanzaa!

“OUR CITY, OUR STORY”

Best Regards!
Commissioner Veronica Edwards Phillips
Greetings Residents:

During the month of September, the Metropolitan Planning Organization (MPO) presented a proposed project to the City Commission which looked at the intersection of Oakland Park Blvd and State Road 7. This area has been designated as the most dangerous intersection in Broward County. The MPO has reported that between August 2014 and August 2019, using the Signal Four Analytics dataset of reported crashes within a 250’ radius, shows we have had a total of 662 crashes (vehicular, bicycle and pedestrians) with numerous fatalities. This intersection ranks as the most dangerous signalized intersection in the County in a recent safety study conducted for the 2045 Metropolitan Transportation plan.

Because we are a transit area, many visitors are taking the bus as means of transportation and sometimes jay walk in the middle of the block trying to take the bus. Unfortunately they become victims of fatal accidents. My job is to represent the city at the MPO to bring back projects for the betterment of the community, to make sure that the residents of Lauderdale Lakes are included in all projects, and that we get our fair share. My job is not to make comments as to yea or nay on any projects until they have been presented to the public. My job is also to encourage residents to attend any presentations and become educated regarding what is going on. My concern is for safety.

I am asking you as a resident to become cognizant of your community. Please attend meetings when announced and voice your opinion.

The Taste of Lauderdale Lakes is almost here. Stay tuned!!!! November 16th at the C-13 Canal. All type of activities are planned for the entire family. General admission is $5.00, VIP experience is $45 and children 12 years old and under attend free of cost. Hope to see you there!

The Frank Coleman Community Garden is open for registration. The cost to rent a space is only $20 a season, beginning in September and ending in May. The garden is for residents of Lauderdale Lakes and Garden Club membership is only $10. You are taught how to grow fresh vegetables for your family. The garden was first promoted in the city by the Community Redevelopment Agency (CRA) in 2011.

In 2013 there was vacant property owned by the city located at the intersection of 40th Street and 31st Avenue that was not being used. It was loaned to be used for the Children's garden until a project is planned for that property. The Children's garden was then organized. Any one is allowed to volunteer at our Children's Garden; Boyd Anderson cheerleaders, BSO children, children from different schools and clubs along with Master Gardeners from the University of Florida volunteer at the garden. Join us and learn how to grow those pesticide free vegetables.

The sidewalk project took place and is completed. The underground infrastructure construction continues all across the City. Again I am asking for your patience. You will all be extremely happy when this project is completed. We must "Grin and Bear it." No more patch work streets because the 50 year old sewers are collapsing! We can all be rest assured that we will not be around the next time an update like this takes place.

Thanks for being a Lauderdale Lakes Resident!

Commissioner Beverly Williams

Because We Care
Most Commonly Asked Questions about the Flu

Will new flu viruses circulate this season?
Flu viruses are constantly changing so it’s not unusual for new flu viruses to appear each year. More information about how flu viruses change is available.

When will flu activity begin and when will it peak?
The timing of flu activity is unpredictable and can vary in different parts of the country and from season to season. Seasonal flu viruses can be detected year-round; however, seasonal flu activity often begins as early as October and November and can continue to occur as late as May. Flu activity most commonly peaks in the United States between December and February.

What should I do to protect myself from flu this season?
CDC recommends a yearly flu vaccine for everyone 6 months of age and older as the first and most important step in protecting against this potentially serious disease. In addition to getting a seasonal flu vaccine, you can take everyday preventive actions like staying away from sick people and washing your hands to reduce the spread of germs. If you are sick with flu, stay home from work or school to prevent spreading flu to others.

What can I do to protect children who are too young to get vaccinated?
Children younger than 6 months old are at high risk of serious flu complications, but are too young to get a flu vaccine. Because of this, safeguarding them from flu is especially important. If you live with or care for an infant younger than 6 months old, you should get a flu vaccine to help protect them from flu. Advice for Caregivers of Young Children is available for more information. Everyone else who is around the baby also should be vaccinated. Also, studies have shown that flu vaccination of the mother during pregnancy can protect the baby after birth from flu infection for several months. In addition to getting vaccinated, you and your loved ones can take everyday preventive actions like staying away from sick people and washing your hands to reduce the spread of germs. If you are sick with flu, stay home from work or school to prevent spreading flu to others.

Where can I get a flu vaccine?
Vaccines are offered by many doctor’s offices, clinics, health departments, pharmacies and college health centers, as well as by many employers, and even by some schools. Even if you don’t have a regular doctor or nurse, you can get a flu vaccine somewhere else, like a health department, pharmacy, urgent care clinic, and often your school, college health center, or work.

Can I get vaccinated and still get flu?
Yes. It’s possible to get sick with flu even if you have been vaccinated (although you won’t know for sure unless you get a flu test). This is possible for the following reasons:
• You may be exposed to a flu virus shortly before getting vaccinated or during the period that it takes the body to gain protection after getting vaccinated. This exposure may result in you becoming ill with flu before the vaccine begins to protect you. (Antibodies that provide protection develop in the body about 2 weeks after vaccination.)
• You may be exposed to a flu virus that is not included in the seasonal flu vaccine. There are many different flu viruses that circulate every year. A flu vaccine is made to protect against the three or four flu viruses that research suggests will be most common.
Topics

Recent studies by CDC researchers and other researchers suggest that flu vaccination usually reduces the risk of influenza illness by 40% to 60% among the overall population when the vaccine viruses are like the ones spreading in the community.

What should I do if I get sick with flu?
Most people with flu have mild illness and do not need medical care or antiviral drugs. If you get sick with flu symptoms, in most cases, you should stay home and avoid contact with other people except to get medical care. If, however, you have symptoms of flu and are at high risk of flu complications, or are very sick or concerned about your illness, contact your health care provider. There are drugs your doctor may prescribe for treating flu called antivirals. These drugs can make you better faster and may also prevent serious complications.

TIPS TO STOP THE SPREAD OF THE FLU

* Stay at home when you are sick
* Cover your mouth and nose with tissue when you cough or sneeze
* Cough or sneeze into your upper sleeve, not your hand
* Put used tissues in the waste basket

Flu vaccine varies in how well it works, and unfortunately, some people can become infected with a flu virus that a flu vaccine is designed to protect against, despite getting vaccinated. Protection provided by flu vaccination can vary widely, based in part on health and age factors of the person getting vaccinated. It also can vary based on the match between the vaccine viruses used to produce vaccine and circulating viruses that season. In general, a flu vaccine works best among healthy younger adults and older children. Some older people and people with certain chronic illnesses may develop less immunity after vaccination. Flu vaccination is not a perfect product, but it is the best way to protect against flu infection.

Even if you do get the flu after being vaccinated, some studies have shown that a flu vaccine can reduce the severity of your illness.

How effective will flu vaccines be this season?
It’s not possible to say in advance exactly how well the flu vaccine will work this season. How well it works can vary by season, virus type/subtype, the kind of vaccine, and age and other host factors of the people being vaccinated. At least two factors play an important role in determining the likelihood that flu vaccines will protect a person from flu illness: 1) characteristics of the person being vaccinated (such as their age and health), and 2) the similarity or “match” between the flu viruses in the vaccine and those spreading in the community.
The holidays are a time to celebrate, give thanks, and reflect. They are also a time to pay special attention to your health. Give the gift of health and safety to yourself and others by following these holiday tips.

1. **Wash your hands often.**
   (Lave men ou often)
   Keeping hands clean is one of the most important steps you can take to avoid getting sick and spreading germs to others. Wash your hands with soap and clean running water for at least 20 seconds. If soap and clean water are not available, use an alcohol-based product.

2. **Stay warm.**
   (Hoře)
   Cold temperatures can cause serious health problems, especially in infants and older adults. Stay dry, and dress warmly in several layers of loose-fitting, tightly woven clothing. Check on children, the elderly and pets.

3. **Manage stress.**
   (Jere estres)
   The holidays don’t need to take a toll on your health. Keep a check on over-commitment and over-spending. Balance work, home, and play. Get support from family and friends. Keep a relaxed and positive outlook. Get enough sleep.

4. **Travel safely.**
   (Vwayaje san danje)
   Whether you’re traveling across town or around the world, help ensure your trip is safe. Don’t drink and drive, and don’t let someone else drink and drive. Wear a seat belt every time you drive or ride in a motor vehicle. Always buckle your child in the car using a child safety seat, booster seat, or seat belt according to his/her height, weight, and age. Get vaccinations if traveling out of the country.
5 **Be smoke-free.**  
*(Fe lafimen lib)*  
Avoid smoking and breathing other people’s smoke. If you smoke, quit today! Call 1-800-QUIT-NOW, or talk to your health care provider for help.

6 **Get check-ups and vaccinations.**  
*(Jwen chèk-ups ak vaksen)*  
Exams and screenings can help find problems early or before they start. Vaccinations help prevent diseases and save lives. Schedule a visit with your health care provider for a yearly exam. Ask what vaccinations and tests you should get based on your age, lifestyle, travel plans, medical history, and family health history.

7 **Watch the kids.**  
*(Gade timoun yo)*  
Children are at high risk for injuries. Keep a watchful eye on your kids. Keep potentially dangerous toys, food, drinks, household items, choking hazards (like coins and hard candy), and other objects out of kids’ reach. Learn how to provide early treatment for children who are choking. Develop and reinforce rules about acceptable and safe behaviors for all electronic media.

8 **Prevent injuries.**  
*(Anpeche blesi)*  
Injuries from falls and fireworks often occur around the holidays. Use step stools instead of furniture when hanging decorations. Leave the fireworks to the professionals.

Most residential fires occur during the winter months. Keep candles away from children, pets, walkways, trees, and curtains. Never leave fireplaces, stoves, or candles unattended. Don’t use generators, grills, or other gasoline- or charcoal-burning devices inside your home or garage. Install a smoke detector and carbon monoxide detector in your home. Test and change the batteries regularly.

9 **Handle and prepare food safely.**  
*(Epi prepare manje ki an sekirite)*  
As you prepare holiday meals, keep you and your family safe from food-related illness. Wash hands and surfaces often. Avoid cross-contamination by keeping raw meat, poultry, seafood, and eggs (including their juices) away from ready-to-eat foods and eating surfaces. Cook foods to the proper temperature. Refrigerate promptly. Do not leave perishable foods out for more than two hours.

10 **Eat healthy, and be active.**  
*(Manje an sante epi dwe aktif)*  
With balance and moderation, you can enjoy the holidays the healthy way. Choose more vegetables and fruit. Select just one or two of your favorites from the host of tempting foods. Find fun ways to stay active, such as dancing to your favorite holiday music. Be active for at least 2½ hours a week. Help kids and teens be active for at least 1 hour a day.

To learn more, including the holiday song The 12 Ways to Health, visit www.cdc.gov/family/holiday
Meet the Facilities Division
This division of the Public Works Department provides effective and efficient day-to-day maintenance and repair, modernization, and improvement services including, emergency repairs and maintenance to 15 citywide facilities including 5 parks, City's security system and the Greenway Trail. Maintenance work includes re-roofing, replacing heating, ventilating and air conditioning systems, electrical repairs, streetlights repairs, lightning detectors, defibrillators, fire sprinkler system, and conducting structural repairs. Some of the division's daily activities include:

• Monthly facility inspections including Playgrounds safety inspections
• Support to City sponsored events (Unifest, Black History Month parade, Taste of Lauderdale Lakes, Shred-A-Thon, Farm Share Programs, etc.)
• Management of all facilities CIP and other improvement/upgrade/renovation projects
• Management of contractual services for elevators, janitorial, streetlights, roof maintenance
• Purchasing process for all supplies
• Upgrade surveillance security cameras
• Facility enhancement and painting (Cypress Preserve Park, Otis Gray Park and Vincent Torres Park)
• Public water fountain replacement
• Facility HVAC replacement (Development Service, Fire Station, Vincent Torres Park, Multi-Purpose two-story building and Aquatic Center)
• Roof replacement (Development Services and Vincent Torres Park buildings)
• Rehabilitation of Samuel Brown Monument
• Monitoring of the City's janitorial services
• Doors and windows maintenance and replacement
• Miscellaneous preventative, routine and housekeeping maintenance

Facilities Division Staff
• Robin Soodeen – Assistant Public Works Director
• Wayne Satar – Facilities Senior Coordinator
• Shaun Spells – MMEP Coordinator
• Hafeezul Hosein – Crew Leader
• Errol Cunningham
• Haniff Karim
• Christopher Caballero
• Lanceford Lovelace
• Kellem Feitz
In July 2017, through a visioning session with the Commission, the City established its’ mission, vision and values statements through a Strategic Plan which will carry the City forward into the future. Our “We Care” motto speaks volumes for our residents, businesses, visitors and our employees of the City of Lauderdale Lakes as we embark together to enhance and improve our community. “Our City Our Story” campaign is one way we will be communicating and reaching our community, our “New” newsletter is designed to keep everyone informed about everything that is happening in the Heart of Broward County.

3 REASONS TO FILL OUT THE 2020 CENSUS

1. It’s Important

$675 billion in federal funds, grants and support to states is distributed based on Census data. That money is spent on schools, hospitals, roads and other vital programs.

2. It’s Easy

Over 50 language guides and glossaries will be provided by the Census in 12 non-English languages, along with a language identification card as a Questionnaire Assistance.

3. It’s Safe

Title 13 protects your census responses. The Census cannot share your information with immigration enforcement agencies, law enforcement or allow it to be used to determine your eligibility for governmental benefits.

Play A Part In History And Help Ensure That Everyone In Your Community Is Counted. 2020census.gov/en/jobs

“Each person that goes uncounted is $969 a year,” according to State Rep. Omphroy. Over 10 years, that is a revenue loss of $9,690 per resident and $969,000 for 100 residents”. MAKE SURE YOU GET COUNTED 2020

Welcome to the 2019-2020 City of Lauderdale Lakes Teen Center. The Teen Center Program is a free drop-in, fun, safe, healthy environment where all teens can participate and learn. It is the goal of the Recreation Staff to teach the fundamentals of courtesy, kindness, responsibility, team work, social skills and self-respect.

The Teen Center welcomes middle and high school students from the ages of 12 thru 18. Teens enjoy numerous recreational activities including city events, field trips, and community service projects. In addition to the list above, we will have guests to facilitate discussions on training and leadership skills and much more. The teens will learn different methods of positive life skills to maintain a healthy mind, body and spirit.

The Teen Center Program is located at Willie L. Webb Sr. Park, 3601 N. W. 21st Street Lauderdale Lakes, FL 33311. The hours of operation are Monday thru Thursday 5:30 -8:30pm.

Registration is required to participate. All interested Teens are required to complete a registration form that must be signed by a parent/guardian to participate in the Teen Center Program.

If you have any further questions concerning the Teen Center Program, please feel free to call us at (954) 535-2835 or (954) 535-2785 or email Udora Pope at udorap@lauderdealakes.org
